PROTECTIVE SCREEN

Battery or Manually Operated

COVID-19

Help to prevent spreading
viruses and germs,
protect yourself, and
anyone around.

Roller Protective PVC Screens

Using a fabric made from the most advanced transparent PVC used in Birkdale roller blinds, it will ensure peace of mind for workers and help customers feel comfortable.

It can be controlled using either a chain or a battery-powered tubular motor and is made to measure so it can meet the needs of every business.

It is able to perform the function of a traditional methacrylate screen at a lower cost and can be removed when necessary.

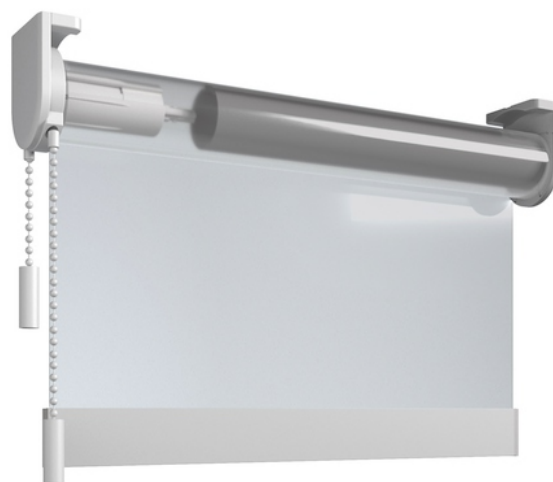

Technical Specification

ROLL WIDTH 1370mm / 1400mm

ROLL HEIGHT 2400mm

Battery Operated

Chain Operated

CRYSTAL PVC FILM FIREPROOF

COMPOSITION:	100% PVC
ROLL WIDTH:	1370 mm
WEIGHT PER M²:	617,5 g/m ²
