Protection from the elements

Our residential and commercial range of solar protection systems have been specially designed to provide protection from the sun and rain throughout the year.

With a choice of frame colours, and huge range of different coverings, there's a combination to complement any type of property or premises.

Stylish and built to last

Designed with quality in mind, and manufactured using the very best materials, we guarantee the durability of both the fabric and the structure, reducing the products maintenance requirements.

Manually operated or powered systems are available with additional options including lighting, heating and sensors, ensuring suitability for all applications.

KIARA

Cassette Awnings

The number one solution for sun protection. Meeting all needs, enhancing the quality of life and saving energy.

We offer cassette awnings suitable for applications including windows, balconies, patios and terraces. Our products are suitable for both domestic and commercial application.

Stylish Awnings built to last

Our awnings are compact models with unique aesthetic qualities. When closed, the awning is fully contained within a stylish aluminium housing, satisfying all types of architectural requirements.

The awning is designed to guarantee the durability of both the fabric and the structure, reducing the products maintenance.

We offer various models of our functional and modern awnings, including a large selection of technical fabrics in a broad range of colours for a unique look.

Available are both a manually operated system or a powered system using our range of Somfy motors and accessories.

With the option of added LED lighting, our awnings are suitable for all applications.

Safety as standard

All of our cassette awning come with a built in wind sensor as standard.

The wind sensor detects vibrations caused by high wind situations and will automatically retract the awning.

This prevents any accidental damage to both the awning and the building.

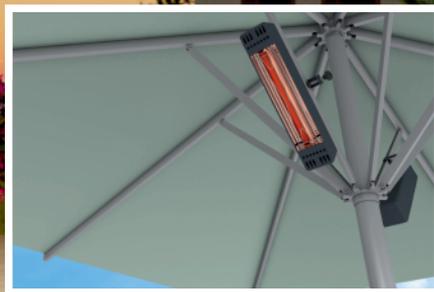

Parasols

An ideal choice for both residential and commercial spaces, especially with the increase in requirements for outdoor dining.

Easy to operate, with a wide choice of shapes, colours and materials, you're sure to find a combination to complement your surroundings.

BESTA

Quality guaranteed

Aluminium and galvanized steel construction with stainless steel fittings, you're guaranteed to have many years of reliable use.

By fixing the fabric to the profiles, and depending on the choice of fabric, waterproofing can be guaranteed even on the wettest of days.

Safety without compromise

Mobile, fixed or hidden bases provide safe and stable support, and with a range of coverings offering UV protection, waterproof shelter and even a fire retardant finish, we can cover all eventualities.

Easily operated with a handle, the telescopic system slides through the spindle ensuring our range of parasols can be deployed quickly and safely.

Optional extras

Round, square or rectangle, there's a shape to offer you protection from the sun and rain.

With the optional extras such as fixed or repositionable heaters, and LED lights on the underside, you can experience outdoor partying and dining all year round.

Rain or Shine

Our stretched canvas pergola offers a protection system designed to protect from both the sun and the rain.

The dynamic and modular design adapts to all kinds of gardens and terraces. Transforming spaces and providing elegance and comfort.

Protection from the elements

Our residential and commercial range of solar protection systems have been specially designed to provide protection from the sun and rain throughout the year.

With a choice of frame colours, and huge range of different coverings, there's a combination to complement any type of property of premises.

ANEAS

Retractable Awnings

The perfect protection for patios and terraces, well suited to both home and commercial use. Ideal for outdoor dining in restaurants and beer gardens.

These can be anchored to wall or be freestanding and range from two metres square right up to an impressive seven metres square.

Strong and dependable

Designed to be strong and low maintenance, the aluminium extrusions will offer many years of carefree outdoor living.

The canopy can be easily retracted by hand or the optional motorised upgrade. The addition of drop awnings can add extra protection from the elements should it be required.
